MSN Student - 2020 (PS)

Is there someone, such as a professor, peer, coach, or advisor, that had a substantial impact on your college experience? How?

My professor and advisor, Dr. Catherine Coleman, was a source of light and direction as I completed my master's degree in nursing at USF and took my first steps into the professional world. For me, she exemplifies caritas, a Latin term meaning charity and love for all, through her resilience, connection to the university, and commitment to the nursing profession.
